Turning Point Consulting

Outcomes

At the completion of this program staff will be better positioned to work as a whole school to engage others in assessing, understanding, reviewing and building their personal development journey.

This will be achieved through the provision of current information and experiences in coaching and advising techniques, shared examples of coaching students on their career thinking in addition to staff on technical and soft skill improvements and reflections.

Focusing on crating clarity and depth of understanding of core coaching competencies we will look at a targeted approach and so structured coaching techniques.

Coaching Foundations

- Strategic coaching from contemplation to ownership
- Building trust as a advisor
- High level questioning and listening skills around planning
- Strategies to empower ownership through resilience
- Coaching through capabilities and strengths
- Support structure, roles and responsibilities of staff involved

"Thanks to the skills, patience and perseverance of Kathryn Taylor, we now have a better understanding of the dynamics in our team. We all benefited from completing the program that was specifically developed for our needs. We are still talking about just how much we gained from the experience both personally and professionally. It had a big impact and changed the way we interact in a very positive manner."
